

# Solution Area-A

# Digital Business Documents

# & Product Information

eReceipt kick-off  
29. November 2022  
Ole Madsen

# Retail activities – right now

- CEN TC 434 WG 1
- OASIS UBL TC
- Nordic Smart Government & Business
- National Teams

# Nordic Smart Government & Business

What makes NSG&B different?

- We fokus on the network
- We fokus on examples that is ready for the network
- We will focus on security model

# What will we deliver

- Retail examples
- Example codelists
- Example of a Retail security model

# 3 meetings

- 29. November, from 11:00 to 12:00 CET
- 13. December from 11:00 to 12:00 CET
- 10. January from 11:00 to 12:00 CET

# What is needed from you

3 hours of your time

Deliver one XML example 8. january 2023

- - welcome to change my example
- - ideas for Endpoint and routing

# 13. of December

We will discuss

- Discuss 2 new codelists
- Network and security

# 10. of January

- We will discuss XML –examples
- Discuss how to use PEPPOL network

# Pilot

- Just after the workshop 10. of January we will start the pilot
- And be sending the developed XML examples in the PEPPOL network

# Development-project eReceipt

## Participants:

- [jonas.zalinkevicius@edelivery.lt](mailto:jonas.zalinkevicius@edelivery.lt);
- [Tapani.Makela@vero.fi](mailto:Tapani.Makela@vero.fi)
- [olemad@erst.dk](mailto:olemad@erst.dk)
- Oddvar Lone- [oddvar.lone@mercell.com](mailto:oddvar.lone@mercell.com)
- [Björn Friðgeir Björnsson <bjorn@unimaze.com>](mailto:Björn.Friðgeir.Björnsson@unimaze.com);
- [Are Berg <are.berg@edisys.no>](mailto:Are.Berg@edisys.no);

# Pilot

- We need at least 2 pilot participants
- One who can send an eReceipt
- One who can receive an eReceipt

# 4 corner model

- We will use the eDelivery - 4 corner model
- We will use PEPPOL Certificate on the PEPPOL Network

# Ideas for new EndpointID

How can an employee identify himself in the 4 corner model

- The Employee is in corner 1
- One way is to use a mobilephone number (maybe plus something)
- Another way is to use part of Creditcard number + something different
- Other ways
- What we are talking about is expand the codelist

# What will we do with the result

- Used as input to UBL 2.4 beta
- Use as input to Open PEPPOL
- Goal is to have a real retail document working in PEPPOL network 2024

# Outcome – January 2023

Based on PEPPOL BIS 3 UBL (based on UBL 2.1)

- New codelist
- Some example files using new codelist
- Ideas for new EndpointID
- Pilot report

# Activities

- Prepare BIS document and artefacts
- Run a (short) review period
- Finalize documentation for piloting
- Support the pilot
